

# L-BOX<sup>®</sup> & Pro Click<sup>®</sup>

## PRODUCT RANGE

**WORK ON THE GO**  
**FAST. EFFICIENT. WITH SYSTEM.**

# MORE THAN JUST A BOXX

## A MOBILITY SYSTEM

The L-BOXX is much more than merely a carrying case – with its huge amount of combinations and expansion options, it becomes an intelligent transportation and storage system.

This is why today, a host of well known manufacturers provide the L-BOXXes as a transport container or intelligent exterior packaging for their products, and therefore provide their customers with real value added.

In doing so, BOXXes work together like a well tuned team. Regardless of color and manufacturer, L-BOXXes always fit together and are of course fully compatible among each other.

Instead of having a confusing collection of various carrying cases and storage containers, professionals can create ONE uniform and fully compatible system - for ease handling and a maximum of mobility.

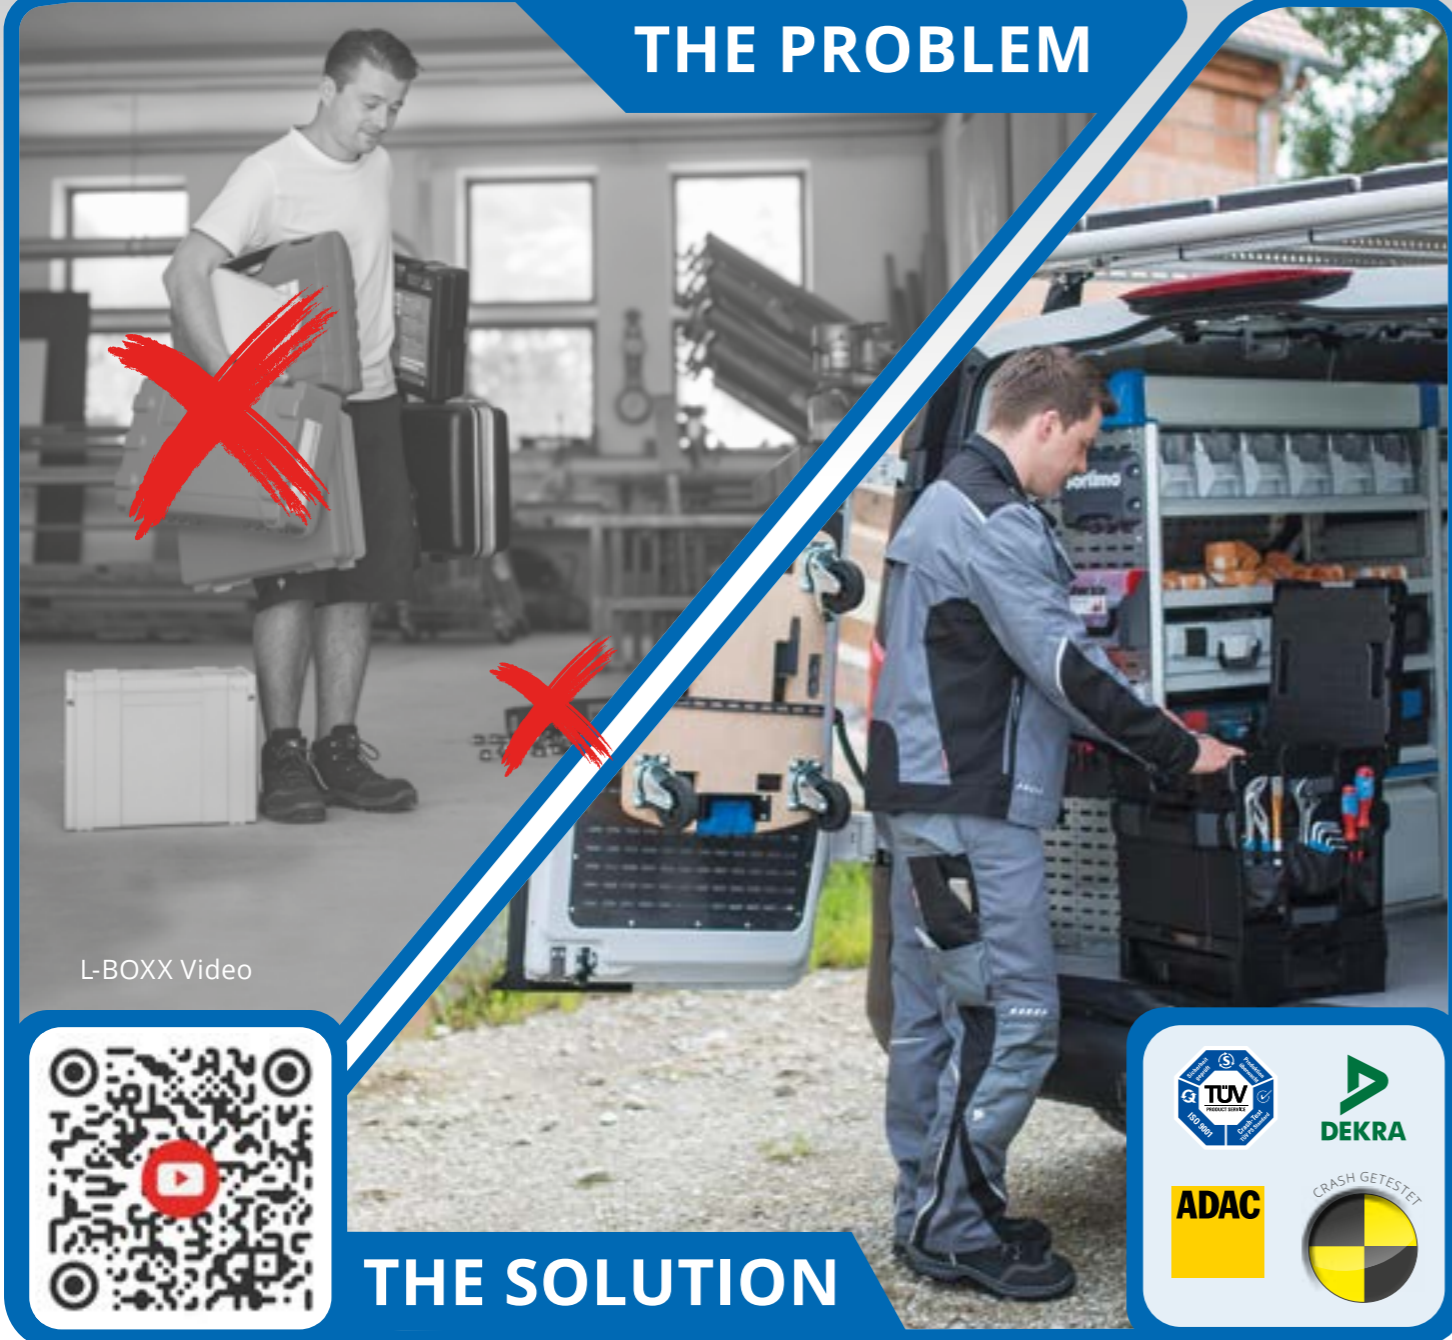

# THE L-BOXX®-SYSTEM

# THE ProClick-SYSTEM

## THE PROBLEM

L-BOXX Video

## THE SOLUTION

**L-BOXX®**

FOR QUICK AND EFFICIENT  
MOBILE WORKING

**ProClick**

The craftsman works with a huge range of different machine cases, boxes, cartons and buckets. This means it can be difficult to monitor stock levels of expendable materials; transport is hard work; and every day lots of valuable time is lost during loading

and unloading, as well as securing cargo.

**L-BOXX® and ProClick are the solution:**

Two mobility systems that are compatible with each other and enable fast as well as efficient work.

[www.l-boxx.com](http://www.l-boxx.com)

ProClick Video

## • The innovative click system

for intuitive connecting, combining and separating in seconds, as well as clever transport and time-saving carrying in the compound.

## • Simply flexible

Due to the extensive range of accessories and the modular design, the two mobility systems can be expanded as desired, unlimitedly and individually.

## • A clear overview

Tidiness and clarity, even in the workshop – so nothing is forgotten that will be needed later on the construction site.

## • Everything to hand

Thanks to integration into the vehicle equipment systems of numerous well-known manufacturers, the BOXXes and the ProClick system are quickly, safely and neatly stowed in the vehicle.

# MOBILITY SYSTEMS

# ROBUST - MOBILE - EFFICIENT

The robust click mechanism and carrying handles permit L-BOXXes to be transported in bundles of up to 40 kg

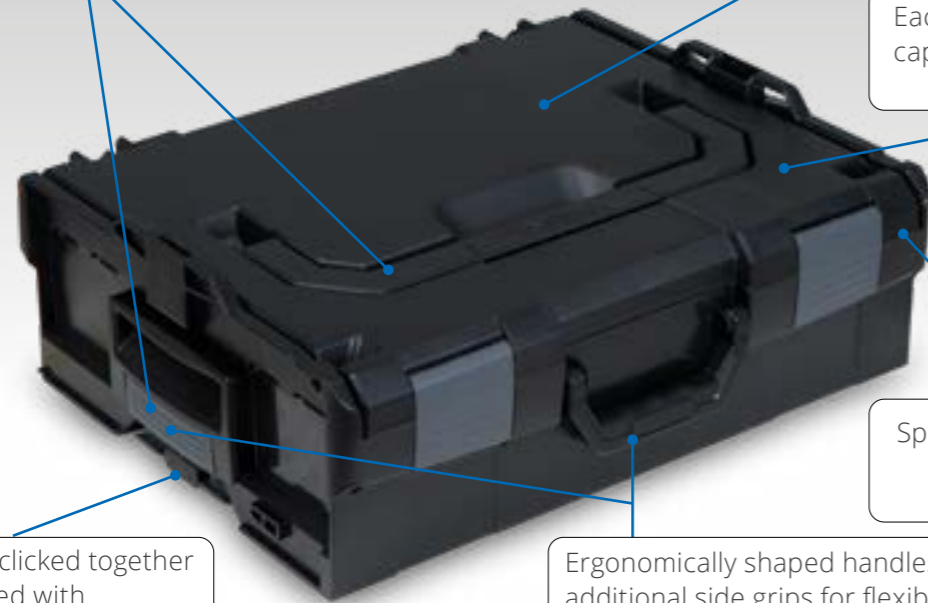

The lid can hold a top load of up to 100 kg

Each L-BOXX has a loading capacity of up to 25 kg

Spray-water-proof

BOXXes are clicked together and separated with unbeatable ease

Ergonomically shaped handles and additional side grips for flexible and convenient handling

Thanks to its rugged design made from impact and shock-resistant plastic, the L-BOXX® can handle nearly any challenge and withstand even extreme uses. It is therefore ideally equipped to handle daily use at the construction site.

Whether you need to transport heavy materials, accessories or tools, when using the L-BOXX® everything is conveniently brought to the construction site with ease.

**L-BOXX®**

**XL-BOXX®**

**ProClick**

Convenient transport in compound thanks to the patented click connection

Quickly connection and separate the BOXXes thanks patented snap fit connection

ProClick changes the way how professionals carry their tools - always everything at hand

Efficient transport to the construction site and back again

Fully compatible with numerous manufacturers of vehicle equipment
