MOBILE WORK MADE EASY

ProClick

INTUITIVE - RELIABLE - SECURE

Figure Original Size

CLICK AND GO

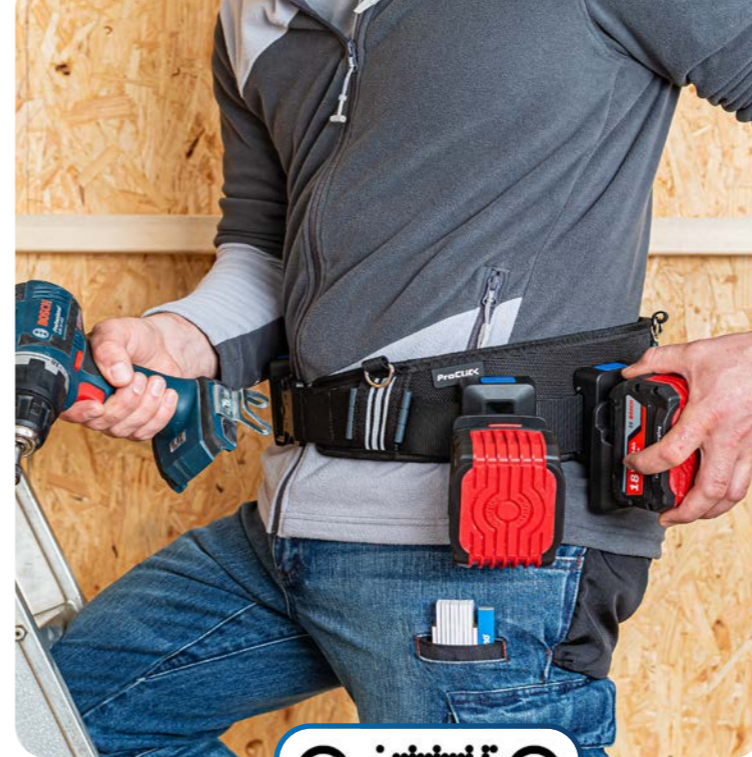

ProClick changes the way professional tradespeople carry their tools.

The ergonomically padded Tool belt or simply your own pants belt forms the basis- the **ProClick** holder is the system's core component and key link.

Unique benefit: ProClick makes awkward threading and unthreading of the belt a thing of the past. If necessary, the Holder can be removed in the blink of an eye or attached to the Belt using the clever click connection.

The various Tool Pouches, flexible storage solutions and robust Holders, which are equipped with a ClickUnit, can be clicked into place and firmly connected to the Holder in a single movement. So you always have everything at hand – and your hands free.

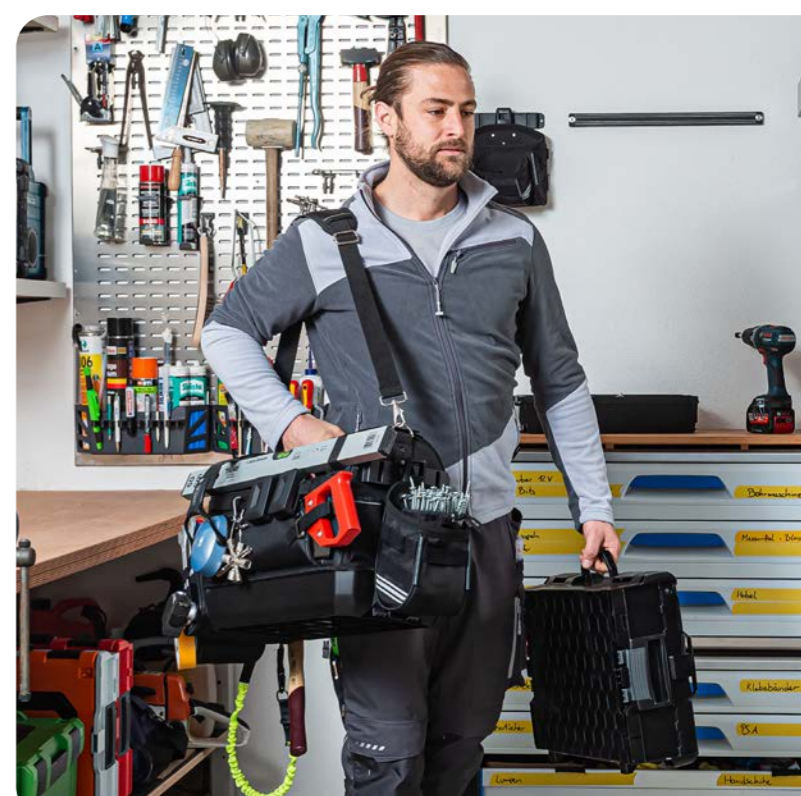

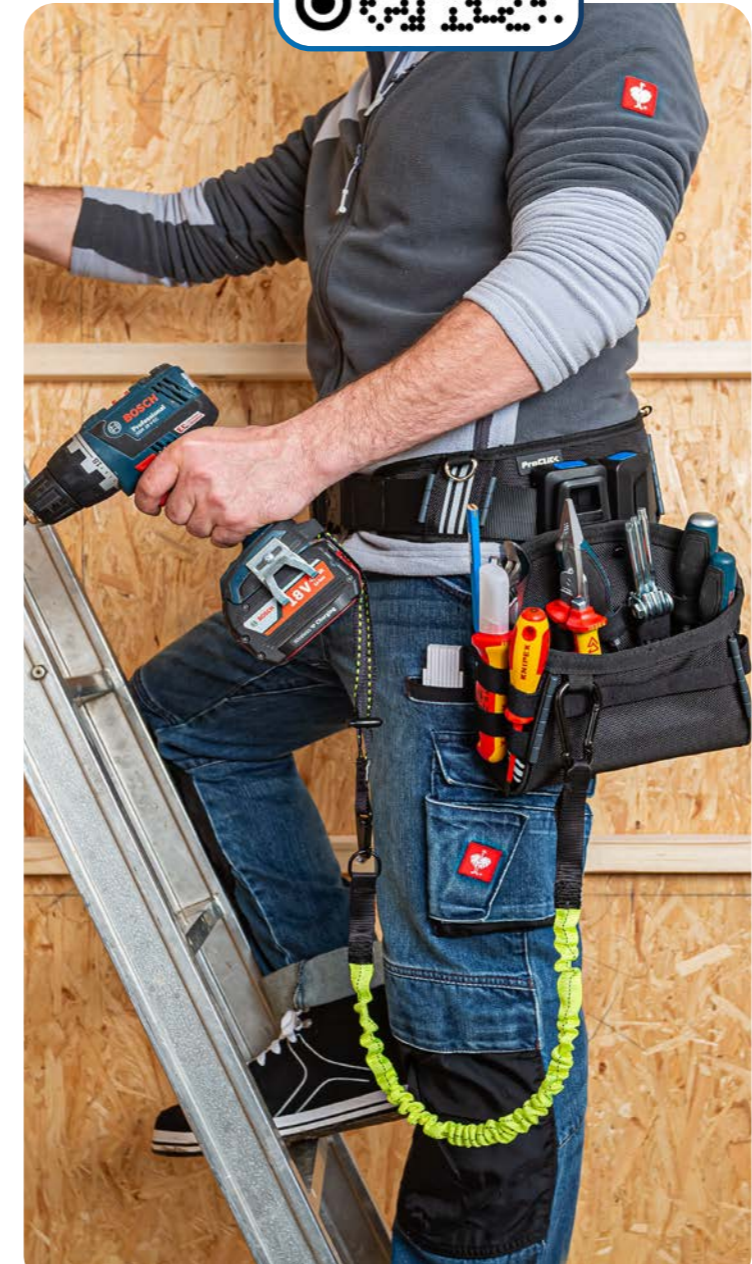

ProClick

IN ACTION

ProClick Battery Adapter

The ProClick Battery Adapter enables a spare battery to be safely carried on the worker's body. It provides the missing link between the ProClick Holder and all commercially available CAS and all Bosch Professionals 18V batteries. Thanks to the intuitive and simple click connection, you attach the Battery Adapter to the ProClick Holder and insert the battery on the front of the Battery Adapter until it snaps firmly into place. Your spare battery is thus securely stored and always ready to hand when you are on the move.
